**MANAGEMENT MEETING & CULINARY EXPERIENCE  
AT GRIGORESCU MANSION**

## **MANAGEMENT MEETING & CULINARY EXPERIENCE AT GRIGORESCU MANSION**

**Are you looking for something special for your next management meeting?**

**Would you like to spend a relaxing and productive day together with your team in a quiet, rustic and remote location?**

We are pleased to introduce Grigorescu Mansion, located only 2 hours away from Bucharest and surrounded by beautiful landscapes at the entrance of Buzau Valley - close to the wine area Dealu Mare and the Muddy Volcanoes.

The venue is the head office of our partner company Terra Carpatica and hosts the regional branch office of City Compass.

**The events at the mansion can be exclusively organised through City Compass Tours & Events starting with April 2018.**

## ABOUT THE MANSION

The neo-brancovenesc style mansion was built in 1930 by the great land owner C.C. Grigorescu. For many years the house and the surrounding land were used for a local wine and brandy production.

During World War II Grigorescu Mansion was used as hospital for wounded soldiers and shelter for the local inhabitants. The mansion has been abandoned more than 20 years ago and was completely renovated in 2011.

Today, the mansion is famous for culinary events and Carpathian fine food production.

The *slow food* concept is based on seasonal products that come exclusively from local farmers, own production or surrounding forests and orchards.
